

MAJOR MARQUARDT'S

Stone Front
Drug Store

Established in 1858.

I am now receiving my new stock of

Wall Paper,

Window Shades,

Picture, Laminated,

Window Cornices,

Cords and Tassels

For the Spring Trade. Will have the largest and best stock of all the above named articles in the city, which I offer at the lowest prices for cash or on terms.

DRUGS,

Medicines,

Chemicals

and Dye Stuffs

With directions how to use them. PATENT MEDICINE, J. F. MARQUARDT'S, is a sure cure for all the above named ailments. Fully compounded by chemists.

J. F. MARQUARDT,

TIFFIN TRIBUNE,

Local and Miscellaneous

Advertisements. The Tribune has the largest circulation than the combined number of any other paper in the city.

Communications. All communications should be accompanied by the name of the writer, not for publication, but as a guarantee of good faith, or they will go to the waste.

Notice. Extra, Marriage and Death announcements. Five cents a line for the first insertion, and one cent for each subsequent insertion. All notices must be paid for in advance.

TIFFIN, Thursday Eve., July 23, 1875.

SPECIAL NOTICE.

All persons indebted to the TRIBUNE on subscription, or for advertising and job work, are notified that all the old accounts of Locke & Bro. must be closed up to April 1, 1875, and settled by note or otherwise. We hope this notice will be taken of this, and that all will act.

All who are in need of millinery goods will do well to call on Mrs. Allen, as she proposes to sell at cost for the next sixty days.

Chas. Chamberlin, an employee of the Tiffin Shoe Factory had the front finger of his left hand broken and badly mangled, in a mauling machine last Monday.

Persons wishing to see a novel contrivance should drop in at Nellig's clothing store and look at Harry's mechanical timepiece. It is a curiosity and worth looking at.

Last—A two-year old heifer, a dark red milky, having a rope around her neck, from the Steiner farm. The find will please leave word at this office and receive a suitable reward.

The wife of Dr. Myers, of Allandale, died on Sunday morning last during child-birth. She was a very estimable woman and had many warm friends. The bereaved family have the hearty sympathy of the community.

Changed Name.—The post office formerly known as Maunee City has been changed by order of the Postmaster General, and will hereafter be known as South Toledo. Totals will now claim it as a suburb more than ever before.

Columbus & Toledo R. R.—At Columbus on Wednesday last week, a meeting of the Directors of this road, President Green was directed to advertise for bids to build the road, to be let August 3d, and an order was passed to prepare the bonds and mortgage for execution.

Charles Roman, of the Press, while out riding on Market street on Sunday evening last was injured. The wheel of the buggy struck a stone, throwing him out and cutting his face severely. He was unconscious when picked up, but is getting along, and will be all right in one day.

Friday afternoon at 3 o'clock, the large saw factory of Luce & Kerner at Millbury, on the Lake Shore railroad, caught fire from a passing locomotive, and in a short time the building and its contents were destroyed. A dwelling house, near by, owned by M. Scott was also burned. The loss on the factory is \$25,000; insured for \$10,000; loss on house and contents about \$2,000.

Three tramps were arrested Monday morning last for begging clothing and money under the pretense of being in need of them, but instead of wearing the clothing they collected in this manner, they boxed it up and sent it, we understand, to Columbus. All of these games are resorted to by these itinerant tramps, and people cannot be too careful to whom they give aid.

Who can beat it?—I, out, on Saturday last with one team, and put in about nine acres of heavy wheat in five hours, on F. Glenn's farm, four miles south of town, with a Bickney extra Rake, and five men to do the binding and sheafing. When this is broken I will write of it again.

F. J. GLEN, G. D. NEESE, J. M. NELSON, J. W. FINE.

Prof. Randall, the aeronaut who makes balloon ascensions for Barnum's show, according to reports, is supposed to have been lost in Lake Michigan. He was accompanied by a young man, Newton S. Grimwood, a reporter of the Chicago Journal.

Billionaires are not to be envied in this case, but a calm and serene visage was seen by our citizens on Saturday last, by Prof. Randall, in his daring flight of a few Phillips up Washington street, by his hands holding fast to the ropes and his feet resting on terra firma, was well worth the wait. When this is for about half a day and then see it peaceful departure, know how they would have enjoyed a voyage among the clouds of tobacco smoke.

Threatened Abduction.

Nine years ago last winter a female infant was found in the wood-house of William Hunter, now deceased, who resided about a mile and a half north-west of this city, and for some reason, best known to himself, the child was taken to the house of a neighbor, Mr. Schuler, who placed the child into the family and cared for it as his own. Rosa Schuler. She had the benefit of a common school education, and being an intelligent girl, advanced rapidly in her studies, on account of which she was sent to the normal building near the College. She could read and write both English and German.

Last fall a letter was received by one of the B. & O. agents for information regarding Rosa, as to where she lived, etc. Nothing of note occurred until Monday, July 20, when an unknown lady and gentleman called at Mr. Hunter's and sent for Rosa, representing themselves as being the parents of the child. Her foster parents sent her over to Hunter's, but, feeling suspicious of the lady and gentleman, called at Mr. Hunter's and sent for Rosa, representing themselves as being the parents of the child. Her foster parents sent her over to Hunter's, but, feeling suspicious of the lady and gentleman, called at Mr. Hunter's and sent for Rosa, representing themselves as being the parents of the child.

Go by Lake Shore R. R. to Dunkirk, where street cars will be waiting to convey passengers to Fredonia, where all will be welcome.

Yours truly, H. R. SANFORD, President.

TRANSFERENCE OF BLOOD.

Miss Hattie Miller, aged 20 years, daughter of Dr. Wm. Miller, of Fremont, having been suffering from consumption for some eighteen months, and after consulting some of the leading physicians without obtaining any relief, her father decided to try a remedy suggested by Dr. J. M. Stann, of the blood of a lamb, and after six or eight ounces of blood were received by the patient her color improved greatly and she felt better.

Her symptoms became more hopeful, and there seemed to be a possibility of her recovery. But in a few days her pulse gradually sank, and on Monday morning she expired.

Attending physicians think that if the operation had been performed in time it might have been attended with good results.

Railroad accident.—Friday afternoon, when the passenger train on the C. & C. railroad was about four miles north of Clyde, a young steer ran out of the woods on the track in front of the locomotive, intending to cross the track.

The engine was stopped, and the engineer, being forced under it, threw the engine from the track, down the embankment into the ditch, bottom side up. Horace Brooks, the engineer, was severely injured. The money was sent on the 12th inst. thus settling the matter. The would-be parents are not known, and there is a manifest effort to keep this fact a secret.

DESTRUCTIVE STORM.

An extensive and destructive storm passed over the south-eastern portion of Ohio, extending across into West Virginia, Friday night last, blowing down trees, and doing great damage to crops.

At Massillon the storm is reported to have been the most violent ever known; at Lancaster, Cambridge, Newark and other places in that vicinity it was terrific; and at Wheeling it lasted a half hour, tearing trees by the roots, beating corn and grain to the ground and scattering around promiscuously.

X. T. TEACHERS ASSOCIATION.

To the Teachers of Ohio, greeting:

For the first time in its history, the New York Teachers' Association will meet near the borders of your State, its Thirtieth Anniversary will be held at Fredonia, July 28, 29, and 30, 1875.

These will be addresses, reports, and papers from some of the best educators in the country.

You are most cordially invited to attend and participate in the exercises.

Go by Lake Shore R. R. to Dunkirk, where street cars will be waiting to convey passengers to Fredonia, where all will be welcome.

Yours truly, H. R. SANFORD, President.

TRANSFERENCE OF BLOOD.

Miss Hattie Miller, aged 20 years, daughter of Dr. Wm. Miller, of Fremont, having been suffering from consumption for some eighteen months, and after consulting some of the leading physicians without obtaining any relief, her father decided to try a remedy suggested by Dr. J. M. Stann, of the blood of a lamb, and after six or eight ounces of blood were received by the patient her color improved greatly and she felt better.

Her symptoms became more hopeful, and there seemed to be a possibility of her recovery. But in a few days her pulse gradually sank, and on Monday morning she expired.

Attending physicians think that if the operation had been performed in time it might have been attended with good results.
